

# EGLPDCR Critical Supply List in Collaboration with Healthcare Ready

## How to use this document:

This document identifies critical supplies required for response to common hazards.

Covering **medical supplies**, supplies for the **Neonatal Intensive Care Unit and pediatric departments**, and **pharmacy** requirements, this resource is designed to serve as a reference for pediatric hospitals in disaster preparedness and readiness efforts. It is not intended to serve as comprehensive critical supply lists for day to day operations.

## Sources:

This document is a compilation of supply lists from:

- HHS's Office of the Assistant Secretary for Preparedness and Response (ASPR)
- The American Academy of Pediatrics (AAP), American College of Emergency Physicians (ACEP), and Emergency Nurses Association (ENA)
- Select EGLPCDR hospitals

## Tab Summaries:

### **Medical Supplies: pg 2-19**

This summarizes critical medical supplies in the following categories in order: Medical Supplies, Airway/Breathing Diagnostics, Diagnostics, Urology/GYN, General Patient Care, Surgical Care, Wound Care, Orthopedic Care, Burn Care, and Provider PPE.

### **NICU and Pediatrics: pg 20-31**

This summarizes critical medical supplies specifically for NICU and pediatric departments, in the following categories ordered as: Medical Supplies, Airway/Breathing Diagnostics, Diagnostics, Urology/GYN, General Patient Care, Surgical Care, Wound Care, Orthopedic Care, Burn Care, and Provider PPE.

### **Pharmacy: pg 32-36**

This summarizes key pharmaceuticals to have on hand for all hazards.

Products are separated into the following categories: Analgesia, Anesthetic, Antibiotic, Antiemetic, Anticonvulsant, Antipyretic, Antidote, Anti-hypertensive, Antipsychotic, Anti-viral, Bronchodilator, Buffer, Calcium, Cardiac Medication, Dextrose, Inotropic Agent, Insulin, IV Fluid, Paralytic, Pressor, Sedative, SSKI, Steroid, Vaccine, and Other.
