

Instructions and Document Summary

About

This document identifies critical supplies needed for hospitals to respond to common hazards. The document covers medical supplies, supplies for the NICU and pediatric departments, and pharmacy needs.

This document is not intended to serve as a critical supply list for day to day operations, nor is it intended to act as a formal requirement.

Instead, this resource is designed to serve as a reference for pediatric hospitals in building their own critical supply list for disaster preparedness efforts. Individual facilities' supply lists may include different product conformations due to preference.

This document was developed by Region V for Kids (formerly EGLPCDR) and Healthcare Ready.

How to Use this Document

The document is divided into 12 tabs. Each tab contains a different type of medical supply. Supplies on each tab can be filtered by relevant categories (e.g., AAMI and ASTI levels for PPE) depending on the product type.

Tab Summaries

Tab Name	Description
Medical Supplies	This tab summarizes non-PPE and non-pharmaceutical critical medical supplies in the following categories: Medical Supplies, Airway/Breathing Diagnostics, Diagnostics, Urology/GYN, General Patient Care, Surgical Care, Wound Care, Orthopedic Care, and Burn Care.
NICU and Peds	This tab summarizes critical medical supplies specifically for NICU and pediatric departments, in the following categories: Medical Supplies, Airway/Breathing Diagnostics, Diagnostics, Urology/GYN, General Patient Care, Surgical Care, Wound Care, Orthopedic Care, Burn Care, and Provider PPE.
MIS-C (2 tabs)	These tabs summarize supplies needed to treat patients with multisystem inflammatory syndrome (MIS-C), a condition where different body parts can become inflamed, including the heart, lungs, kidneys, brain, skin, eyes, or gastrointestinal organs. The condition is associated with COVID-19. One tab includes non-pharmaceutical products used for treating MIS-C. One tab includes pharmaceutical products used for treating MIS-C.

Region V for Kids Critical Supply List

Gen Pharmacy	<p>This tab summarizes key pharmaceuticals for any hospital to have on hand for all hazards.</p> <p>Products are separated into the following categories: Analgesia, Anesthetic, Antibiotic, Antiemetic, Anticonvulsant, Antipyretic, Antidote, Anti-hypertensive, Antipsychotic, Anti-viral, Bronchodilator, Buffer, Calcium, Cardiac Medication, Dextrose, Inotropic Agent, Insulin, IV Fluid, Paralytic, Pressor, Sedative, SSKI, Steroid, Vaccine, and Other.</p>
Provider PPE (6 tabs)	<p>These tabs summarize the provider personal protective equipment (PPE) needed to respond to common hazards. The 6 tabs are: Masks, face protection, gowns, gloves, eye protection, and CAPR.</p>

Masks

ASTM Level (STANDARD) - Classification Legend 1.1
Level 1: Low: Patient & Staff isolation: clean environments, sterile cores, processing departments, ER and ICU bedside procedures
Level 2: Moderate: OR Staff in sterile environments: protects against fluid transmission or a high-risk of fluid exposure
Level 3: High: residual surgical smoke or on patients with known/suspected aerosol transmittable diseases
NIOSH N95: or above, very high risk of exposure

Face Protection

AAMI Levels (STANDARD) - Classification Legend 3.1

Level 1: Minimal risk, i.e., basic care, standard isolation, cover gown for visitors

Level 2: Low risk, i.e., blood draw, suturing, Intensive Care Unit (ICU), or a pathology lab

Level 3: Moderate risk, i.e., during arterial blood draw, inserting IV line, in the ER

Level 4: High risk, i.e., fluid intense procedures, surgery, necessary pathogen resistance, suspected infectious diseases

Controlled Air Purifying Respirator (CAPR)

CAPR Description

Respiratory and contact protection system for laboratory and autopsy personnel.
Multiple designs available that eliminate the need for a long air tube and a large belt mounted blower unit.

Controlled Air Purifying Respirator (CAPR) Type

- BATTERY LI-ION STD FOR CAPR SYSTEM
- BELT FOR BATTERY CAPR SYSTEM
- HEADBAND COMFORT STRIP FOR CAPR SYSTEM
- HOOD PROTECT CAPR MED/LG WHT DISP
- HOOD PROTECT CAPR SM WHT SM DISP
- SHIELD LENS CUFF MED/LG ANTFOG FOR CAPR SYSTEM DISP
