

Implementation Steps for Success

“The best big idea is only going to be as good as its implementation”. The PRQC encourages all sites to adopt the following implementation plan. Referring to this toolkit will assist teams with launching the Pediatric Readiness Quality Collaborative’s initiatives at your local hospital. Pediatric Champions should feel free to adapt the proposed framework to meet the unique needs of your hospital and the patients your facility serves.

1 Understanding your Hospital’s Framework	2 Research Gaps and Change Strategies	3 Core Group Agreement on Change Strategies	4 Develop an Implementation Plan	5 Pilot and Sustainability Plan
<ul style="list-style-type: none"> Recruit champions for your core team Identify core multidisciplinary team and time commitments Discuss background and structure of collaborative Discuss barriers and enablers to pediatric readiness work Identify stakeholders needed to buy into pediatric readiness changes 	<ul style="list-style-type: none"> Complete registration for the data platform Complete environmental scan to assess baseline readiness and identify gaps Select intervention bundle topic to focus your local QI efforts on based on gaps Define a SMART Aim Identify potential key drivers and identify potential change strategies and/or leverage points Define the process of change in your ED via development of a process map 	<ul style="list-style-type: none"> Meet with your team Attend monthly collaborative sessions starting in August 2023 Utilize PRQC staff and refer to intervention bundle guides to support your QI journey Agree on smart aim(s) and change strategies to target next steps Agree on intervention, key drivers, and prioritization of change strategies 	<ul style="list-style-type: none"> Develop an implementation plan that includes: <ul style="list-style-type: none"> SMART Aim Change strategies Process map Timeline Resources/Tools, and Education Provider engagement Chart selection process 	<ul style="list-style-type: none"> Enter data and measure progress Identifying strengths and barriers Implement intervention(s)/PDSA cycles Compare performance to SMART Aim Identify strategies for sustainability Review impact of PDSA cycle in your ED Report progress to key stakeholders
