

EMSC All Grantee Meeting
Cultivating Community, Growing Collaboration
Austin, Texas
September 12, 2023

Sara B. Kinsman, MD PhD
Director, Division of Child Adolescent and Family Health
Maternal and Child Health Bureau (MCHB)

Vision: Healthy Communities, Healthy People

Thank You ALL !!!

Health Resources and Services Administration

HRSA provides equitable health care to the nation's highest-need communities, including for more than 58 million pregnant people, infants, and children.

Health Centers

Provides quality primary and preventive care to millions of patients — regardless of their ability to pay.

Maternal & Child Health

Improves the health and well-being of America's mothers, children, and families.

Provider Relief Funding

Supports health care providers in the U.S. to prevent, prepare for, and respond to coronavirus.

Ryan White HIV/AIDS Program

Provides crucial HIV care, treatment, and support services to more than half a million people with diagnosed HIV.

Health Workforce

Strengthens the health workforce and connects skilled providers to communities in need.

National Health Service Corps

Connects health care clinicians to those with limited access to health care.

Rural Health Policy

Advises the HHS Secretary and increases the access to high quality health care in rural communities through innovative programs.

Telehealth

Improves access to quality health care services through the use of telehealth.

HRSA Maternal and Child Health Bureau

Mission

To improve the health and well-being of America's mothers, children, and families.

Vision

Our vision is an America where all mothers, children, and families thrive and reach their full potential.

MCHB Goals

ACCESS

Assure access to high-quality and equitable health services to optimize health and well-being for all MCH populations.

EQUITY

Achieve health equity for MCH populations.

CAPACITY

Strengthen public health capacity and workforce for MCH.

IMPACT

Maximize impact through leadership, partnership, and stewardship.

MCHB Legislative Authorities

1. Maternal and Child Health Block Grant
2. Maternal, Infant and Early Childhood Home Visiting
3. Healthy Start
4. Autism and Other Developmental Disabilities
5. Emergency Medical Services for Children
6. Early Hearing Detection and Intervention
7. Heritable Disorders
8. Pediatric Mental Health Care Access
9. Family-to-Family Health Information Centers
10. Screening and Treatment for Maternal Depression
11. Sickle Cell Disease Treatment Demonstration Program
12. Poison Control

Explore the Title V Federal-State Partnership

As one of the largest Federal block grant programs, Title V is a key source of support for promoting and improving the health of the Nation's mothers and children. The purpose of the Title V Maternal and Child Health Services Block Grant Program is to create Federal/State partnerships that enable each state/jurisdiction (hereafter referred to as state) to address the health services needs of its mothers, infants and children, which includes children with special health care needs, and their families.

Recommendations for Preventive Pediatric Health Care

These recommendations are prepared by the American Academy of Pediatrics (AAP) and published in the Bright Futures/American Academy of Pediatrics (Bright Futures) Guidelines for Health Supervision of Infants, Children, and Adolescents, 4th Edition, 2016. The AAP continues to emphasize the need for a comprehensive health supervision program for all children, including those who are adopted, foster care, and those who are in the child welfare system. The AAP also emphasizes the need for a comprehensive health supervision program for all children, including those who are adopted, foster care, and those who are in the child welfare system. The AAP also emphasizes the need for a comprehensive health supervision program for all children, including those who are adopted, foster care, and those who are in the child welfare system.

Poison Control Centers

The network of regional and state poison control centers, funded by federal, state, and local sources, may be the first point of contact for health care providers and members of the public concerned about possible terrorist attacks. Callers can reach **poison centers** 24 hours a day via a national toll-free number (800-222-1222), and call data are uploaded automatically in nearly real time (currently a median of 9.5 minutes to upload data from all centers) to the National Poison Data System, maintained at the American Association of Poison Control Centers.⁶⁹

PCP and Preparedness

Tennessee Poison Center seeing 'alarming' increase in calls about delta-8 and children

Dr. Rebecca Bruccoleri said they received about 110 calls about children under 6 exposed to delta-8. That's more than three times as many as the year prior.

Regional Pediatric Pandemic Network

[HOME](#) [ABOUT](#) [NEWS](#) [GET INVOLVED](#) [SIGN UP](#) [SEARCH RESOURCES](#)

Improving health outcomes of children and the resiliency of children, families and communities impacted by emergencies, disasters and pandemics.

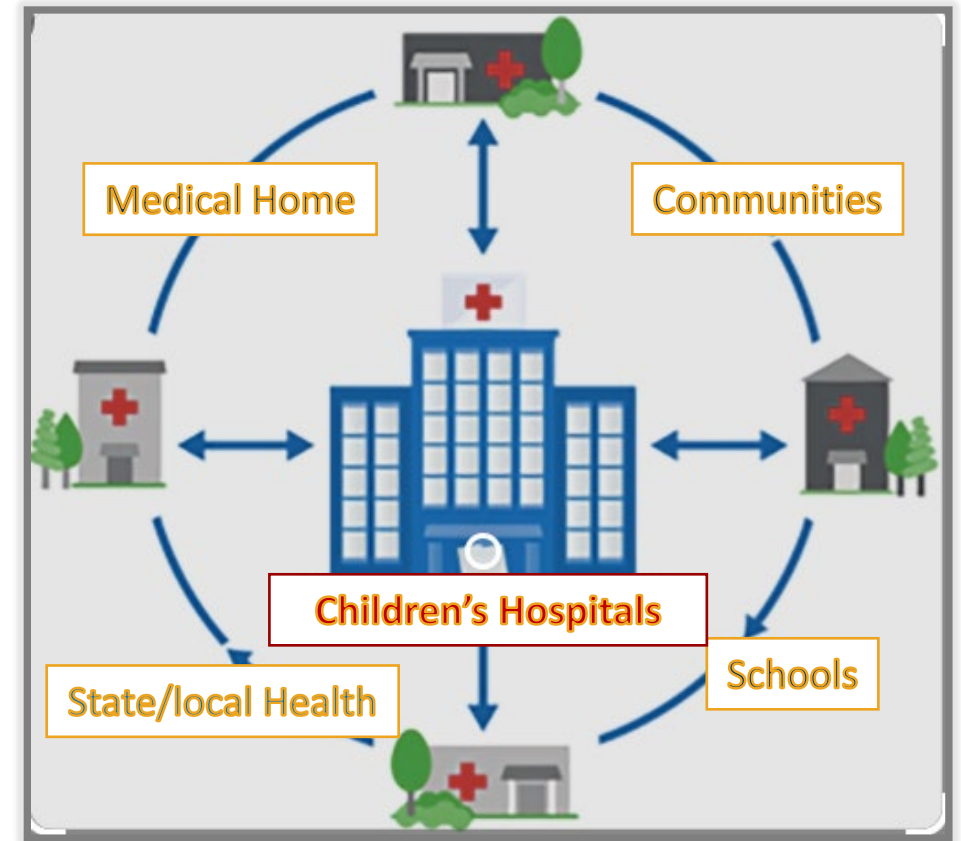

The Pediatric Pandemic Network aims to empower health care systems and communities to provide high-quality, equitable care to children every day and in crises.

Regional Pediatric Pandemic Network

Purpose:

To establish a network of children's hospitals, to coordinate among the nation's children's hospitals and their communities to prepare for and respond to global health threats. This includes the coordination, preparation, response, and dissemination of research-informed pediatric care for future pandemics.

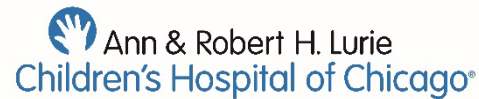

Special Project of Regional and National Significance (SPRANS), authorized by 42 U.S.C. § 701(a)(2) (V), § 501(a)(2) of the Social Security Act).

Network Objectives

To improve our nation's pediatric disaster preparedness by supporting children's hospitals to:

- **Partner with local, state, regional, & national emergency preparedness systems**
- **Collaborate with their community partners to ensure health equity**
- **Improve regional pediatric emergency medical system readiness**
- **Expand pediatric emergency preparedness telehealth support**
- **Accelerate real-time dissemination of research-informed pediatric care**

HRSA
Health Resources & Services Administration

Ensure Health Equity is at our Core

- People of all ages deserve optimal emergency care & preparedness.
- Children living in all communities deserve optimal emergency care, including those that are rural , tribal, territories, medically-underserved and historically marginalized communities.
- Children living in all households including those with economic, food, or housing insecurities deserve optimal care.
