

Welcome to the Pediatric Readiness Quality Collaborative! This document is a paper version of the data collection process for Bundle 1 – Weight in Kilograms. It is designed to show the order and flow of data elements to be captured for each patient record, matching the elements you will see when you access the electronic data capture system.

Questions marked with an asterisk \* are required to complete a patient record.

*Data system rules, such as date/time logic and formats, and acceptable range values, are indicated by italics.*

In the electronic system you will be able to save a record without answering all questions, but all required fields will need to be completed to actually submit a record.

The System Patient Record Number will be generated by the data system; however, it is strongly encouraged that you keep a tracking system of your own as a bridge between the system-generated number and the patient record number from your internal electronic medical records.

Note that when you are in the electronic data system, you will first need to enter information about your site before you can start entering patient record information. Be sure to thoroughly review the User Guide for these steps once in the data system.

---

### Arrival Information:

System Patient Record Number – *(This number will be auto-generated by the data system)*

1. \*Mode of Arrival:

Ambulance (Either Air or Ground)

Walk-In (Car/Taxi/Bus/Foot)

Other or Unknown

2. \*Date of Arrival: \_\_\_\_\_ *(mm/dd/yyyy; cannot be before 01/01/2018)*

3. \*Time of Arrival: \_\_\_\_\_ *(24 hour format)*

4. \*Date of Birth: \_\_\_\_\_ *(mm/dd/yyyy; must be before date of arrival and cannot be before 01/01/2001)*

5. \*Triage Level:

1

2

3

4

5

Green

Yellow

Red

Gray

Black

No triage system available

Not recorded

### Site Policies and Guidelines:

6. Submitted Weighing Policies/Guidelines: *(Document information can only be set under the Local Policy and Guidelines Information section)*

### Common Vital Signs for Bundles 1 and 2:

7. \*Weight in Medical Record

- Yes  
 No → **Skip to 9**

8. \*Weight measurement unit(s) recorded in medical record:

- Kilograms  
 Pounds  
 Both

Weight in Kilograms: \_\_\_\_\_ (0 – 200 kg)

Weight in Pounds: \_\_\_\_\_ (0 – 400 lbs)

### Medications Administered:

9. \*Were any target medication(s) administered?

- Yes  
 No → **SAVE RECORD**

10. \*Medication given (select all that apply):

Medication	Dosage (First Dosing Only) <i>Numeric values only</i>	Route
<input type="checkbox"/> Acetaminophen	_____ mg	<input type="checkbox"/> PO <input type="checkbox"/> PR
<input type="checkbox"/> Ceftriaxone (indication sepsis, pneumonia, UTI only)	_____ mg	<input type="checkbox"/> IV <input type="checkbox"/> IM
<input type="checkbox"/> Decadron	_____ mg	<input type="checkbox"/> PO <input type="checkbox"/> IM <input type="checkbox"/> IV
<input type="checkbox"/> Dextrose 10%	_____ mL	<input type="checkbox"/> IV

<input type="checkbox"/> Dextrose 25%	_____ mL	<input type="checkbox"/> IV
<input type="checkbox"/> Epinephrine (indication anaphylaxis only)	_____ mg	<input type="checkbox"/> IM
<input type="checkbox"/> Fentanyl	_____ mcg	<input type="checkbox"/> IN <input type="checkbox"/> IV <input type="checkbox"/> IM
<input type="checkbox"/> Fosphenytoin	_____ mg	<input type="checkbox"/> IV
<input type="checkbox"/> Ibuprofen	_____ mg	<input type="checkbox"/> PO
<input type="checkbox"/> Lorazepam (indication seizure only)	_____ mg	<input type="checkbox"/> IV <input type="checkbox"/> IM
<input type="checkbox"/> Morphine	_____ mg	<input type="checkbox"/> IV <input type="checkbox"/> IM
<input type="checkbox"/> Normal Saline Bolus	_____ mL	<input type="checkbox"/> IV
<input type="checkbox"/> Ondansetron	_____ mg	<input type="checkbox"/> PO <input type="checkbox"/> IV <input type="checkbox"/> IM
<input type="checkbox"/> Phenytoin	_____ mg	<input type="checkbox"/> IV
<input type="checkbox"/> Toradol	_____ mg	<input type="checkbox"/> IV <input type="checkbox"/> IM
