

# Scenario Design Template

## Scenario Overview

Name of Scenario:

Learning Objectives:

Cognitive:

Technical:

Behavioral:

Patient Description:

History (Medical, Surgical, Social):

Admission Vital Signs:

Admission labs:

Target Trainees (learners):

Anticipated Duration:

Scenario Time:

Debriefing Time (typically 2-3x scenario length):

## Scenario Set-Up

Room Configuration (set up):

Equipment Needed:

Mannequins/task trainers/Actors Needed:

Patient Medical Chart/History:

Miscellaneous:

Demonstration Items Needed for Debriefing:

**Scenario Logistics**

Expected Scenario Flow

Expected Interventions of the Participants:

Expected Endpoint of the Scenario:

Distracters within Scenario:

Optional Challenges for Higher Level Learners:

Videotaping Guidelines:

Roles of participants/trainees:

Roles of Confederates (if applicable):

Debriefing Points:

Cognitive:

Technical:

Behavioral:

Scenario Support Materials, Pre and Post Tests, Evaluation

Reference List:

Pre-test:

Post-test:

Evaluations:
